

PAY YOUR MONEY AND PLAY MACHINES

COURT CALLS THEM LEGAL

Oakland Will Be Wide Open
on the Slot Machines
at Once.

SLOT MACHINES FOR CIGARS WILL BE RUNNING WIDE OPEN IN OAKLAND AT ONCE THE APPELLATE COURT OF SACRAMENTO COUNTY DECLARES THE MACHINES ARE LEGAL.

WHAT J. J. ALLEN SAYS

District Attorney John J. Allen was seen at his office by A TRIBUNE reporter this morning and had the following to say in reference to the slot machines:

"I have read the decision of the Appellate Court in Sacramento County, and will say that so far as the District Attorney's office in this county is concerned the decision of the higher court will be conclusive upon this department. We will not advise the police to make any more arrests. In view of this decision I see no reason for a test case here at the present time."

WHAT CHIEF WILSON SAYS

Chief of Police Wilson, when seen this morning said: "I feel that in this matter I have done my duty. When I made a raid on the slot machines I acted on the advice of the district attorney. So far as the present decision is concerned, I will again act according to his advice in the premises."

WHAT M. C. CHAPMAN SAYS

Melvin C. Chapman made the following statement to a TRIBUNE reporter today:

"I have not yet seen the decision of the Appellate Court in reference to the slot machines, but from what I have read in the papers, it seems to me to be a good exposition of the law of common sense. I do not know what the respective parties advance as their arguments in the case and would not express an opinion until I am better informed. As long as the slot machines are not used for the purpose of gambling for money, and only for the purpose of an exchange for merchandise and cigars, they do no serious harm."

CIGAR MEN HOLD MEETING

The cigar men held a meeting at 2 o'clock this afternoon. They will decide to put back the machines at once.

WILD RIDE ENGINEER SAVES LIFE

T. C. Bee Takes a Header Latter Reverses Lever in Time to Lessen Force of Engine's Blow.

T. C. Bee, residing at 1507 3rd street, who for many years was in charge of the cold engine department at Sibley's Siding Works, San Leandro, recently aped being killed at a half hour this morning by being blown from the engine by a fierce blast of steam to the exterior. He had struck a steel rail which was taken to the rear, and was hit by the police patrol in the rear. On addition, upon examination, it was found that he was suffering from internal contusion of the brain, besides partial contusion and laceration of the liver.

The injury manifested his home about 6:30 o'clock this morning with the effect in view of the long exertion of a general postural. Bee, however, Nine-tenths of a second, and Broadway, a motor bicycle which he was riding, passed a car and skid to one side. Before Bee could recover his balance, he was thrown to the pavement. He remained in an unconscious

condition the greater part of the day, but will eventually recover according to the statement of the attending physician.

Bee is 39 years of age and is a man of family.

BERKELEY HOME AT AUCTION

On account of debts for the sum of \$10,000 worth of goods from Muir Island and the Railroad, G. H. Miller, at 1507 Clay street, Oakland, Friday Aug. 4, at 10 a.m., in company with one concert grand, Webster, piano, cost \$1000, about 1 ton of sugar, 40 tons of flour, 5 tons of rice, 200 cases of dried goods, crackers, elegant draperies, 100 caps, silverware of all kinds, carpet ridge, driving outside, surgeon, and numerous other household requirements, boxing gloves, swords, guns, electric telephones, flags, fancy keys, a large old brass ship-side lamp to obtain lamps, fire-hose, coupling, hose, tubs, iron, tents, copper, and so on. This is the largest and most valuable property of Oakland. All rights will be reserved.

J. A. MUNRO & CO.
71 Clay street.

CONSPIRE TO SEIZE FORTRESS

Present Mutiny Result of Widespread Attempt to Take Reins.

ST. PETERSBURG Aug 1 2:27 P.M.—The greatest excitement prevails here as a result of the startling news from Sweden and there is the deepest apprehension regarding the situation at Cronstadt as there is little doubt that the rising of the garrison of the "Gibraltar of the Baltic" was a premature attempt to execute a widespread military conspiracy which involved the seizing of the fortresses of Söderbörn, Cronstadt, and Stockholm as bases for the revolting Black Sea and Baltic fleets.

WIRES CUT

Both telegraph and telephone communication with Cronstadt was cut during the night but no sound of firing has been heard. Although it is feared that a summons to revolt was issued there, the chief principal point now in doubt is whether the main part of the Black Sea fleet consisting of 1 battleship and three cruisers which were hurried from Revel to Helsinki upon receipt of the news of the mutiny at Sweden has joined the rebels. The squadron is understood to be under the present command of General Alexander Michailov, a brother-in-law of Emperor Nicholas.

CREWS MEETING

A telegram claiming to be from the commander of the fortress has been received here but its meaning is not clear. The dispatch says:

The crew of four warships have mutinied.

Other dispatches mention the crews of the torpedo boat destroyers and other ships, or, as is reported, while another dispatch says:

For a time with a portion of the crews locked below decks, the loyal men of the crew fired upon the mutineers.

The commander of the artillery Gen Aggie was a prisoner during the night.

Cossacks and troops ashore at Helsinki have begun a determined seizure of Skattudden Island.

STRIKES SPREADING

The strikes are spreading rapidly. The whole of the Donets basin, the center of the mining and smelting industry, in the grip of the strikers, 20,000 walking out at Ustka last night while from the Caucasus comes the news that the garrison of Deshler commanding the famous iron gate at Dertent received the news of the dissolution of parliament by destroying killing their commanding officers and installing themselves in complete control of the city and placing their sentinels before the post telegraph and other government buildings.

Now he said in response to a question, you may say from me that this story that I am to marry Miss Gilman is ridiculous, simple, ridiculous. Isn't that enough to say? Ridiculous and that is all I can say about it.

Word that Mrs. Corey had secured a divorce from her husband in Reno, Nev., was today cabled to the actress who is studying music in Paris and it was reported that all arrangements had been made by Miss Gilman for an immediate return to the United States in the event of the suit reaching a termination favorable to Corey.

Had Corey been a prominent actor or theatrical manager his divorce could not have caused more comment along the lines of the public.

Miss Gilman has been absent from the city for some months but report has it that she will arrive here in time to see some of the first openings of the new theatrical season.

In spite of Corey's denial friends of the actress are speculating freely as to whether she and Corey will eventually marry.

When Mrs. Corey first

stated her intentions of securing a divorce from her husband in the financial district made some great efforts to bring about reconciliation but the actor was sanguine that these efforts would come to nothing.

Today these same persons were confident in the opinion that Corey would marry Miss Gilman perhaps before the year is out.

Of one thing every one who knows the Corey's is positive: Corey is not suffering from remorse because his wife secured a divorce. That the marriage was terminated so quickly and with so little notice, comparatively speaking, as cause for congratulation over gave a dinner in McMenico's a few chosen spirits who had stood by him in trouble. It is said to

have been quite a small affair re-

sembling similar little dinners given

Corey a year or two ago. Only the

very intimate friends of Corey were

present, and these, of course, would

not speak too highly of the dinner.

Corey is said to have paid over to

his wife a sum approximating \$2,500,

000 and to have consented to relinquish the custody of his son Allan,

who is sixteen years of age.

After the trial of the case in Reno,

where the jury was unanimous on the

first ballot, Sarah Summerfield, Cor-

ey's attorney announced that his

client would doubtless be as pleased

with the verdict as was his wife Mrs.

Corey was weeping at the time. Some

hours after the decree was granted she

let it be known that she would remain

in Reno with her son, staying with

his sister. It is therefore unlikely

that Corey will see much of either of

them.

WILL THE ACTRESS WED STEEL KING?

MAYBELL GILMAN

May Gilman Will Leave Her Studies and Hurry to the United States.

PARIS Aug 1—There is no doubt to whether she and Corey will eventually marry. When Mrs. Corey first

stated her intentions of securing a divorce from her husband in the financial district made some great efforts to bring about reconciliation but the actor was sanguine that these efforts would come to nothing.

Today these same persons were confident in the opinion that Corey would marry Miss Gilman perhaps before the year is out.

Of one thing every one who knows the Corey's is positive: Corey is not suffering from remorse because his wife secured a divorce. GRAFT IS CHARGED

Merchants Make a Lively Attack on the City Educators.

During the meeting of the Merchants' Exchange last night, an attack was made by Directors Sharp, Hoffman and Crowley on the honesty of purpose of City Superintendent of Schools McClymonds and the City Board of Education in calling at this time for a bond issue to cover expense of reconstructing school buildings. They advocated a plan whereby Superintendent McClymonds could be prevailed upon to make a report about the proposed strengthening and repairing of the school houses damaged by the recent earthquake and held that graft had been rife in the construction of the school buildings evidence to this effect, it was claimed being at hand by the partial destruction of the school houses while other structures nearby had withstood the shock and were in as good a condition as they were prior to the earthquake.

SAYS IT IS DISGRACE.

Director Hoffman stated that the construction of the school buildings under a former bond issue of about \$1,000,000 was a disgrace. He held that the buildings should be torn down and reconstructed, as they were now, and have been unsafe for occupation.

NOT THE MAN.

McClymonds, said Hoffman, is no more fit to look after this work than a fourteen year-old boy.

No action was taken President Williams evidently feeling that the affairs of the Board of Education should not be looked into by the Merchants' Exchange on the ground that the discussion was untimely. He called for adjournment during the arguments and it was carried.

NOT LIABLE.

In connection with this matter, it will be remembered that District Attorney Allen, as advisory attorney for the City Board of Education, filed a report some weeks ago to the effect that the contractor could not be held liable for the earthquake loss on the work that had been accepted by the Board of Education and that the Board itself was liable. This, it is said, would tend to do away with any suspicion that those attending to the bond issue to cover rebuilding and repairs on school buildings, were acting in any but a proper and legal manner.

ARRIVAL OF A LEPROSY CAUSES CONSTERNATION

LAST SALOON LICENSE FOR CHICAGO MEN

PARKERSBURG, W. Va., ★ Aug 1—George Rosett, the ★★ Silesian leper whose movements ★★ have been watched for the last ★★ few weeks, arrived in this city ★★ yesterday, and his travels were ★★ brought suddenly to a halt ★★ when the Baltimore & Ohio of- ★★ ficials refused to allow him to ride on that division of the ★★ road.

Rosett, when he found that he could go no farther made himself comfortable on the grass in the rear of the station.

Late last night Recorder Leonard issued a warrant for three men charging them with bringing the leper here. They

are Baltimore & Ohio Conduc-

tor Owens, Dr. John of Mary-

land and D. W. Mohler of the local yard office.

★★★★★★★★★★★★★★★★★★★★

JUDGE LECTURES BOY.

For throwing rocks at trains, John House, a sixteen year old boy, was arrested last night by Deputy Constable Moonbeam and charged with malicious mischief. This morning Police Judge Daniels gave the boy a severe lecture and told him never to throw another stone any place but in the bay.

GIVEN KNOCKOUT DROPS AND TERRIBLY BEATEN

At 4 o'clock this morning Earl Ulcer, a cook at 3030 O'Farrell street, San Francisco, was found lying in a sober condition, but when he was discovered this morning his face was covered with blood, there being severe contusions of the face and scalp and a deep laceration of the upper lip. Both eyes were blackened and he was otherwise benumbed and tattered and beaten by a party or parties unknown, the purpose of the assault is not plain, as Ulcer had a considerable sum of money in his pockets when found. It is presumed, however, that Ulcer was the victim of footpads, who, after knocking him down and beating him, were frightened away by the approach of police officers, and he was able to make his escape.

at the receiving hospital, he was taken in charge by the police, who will further investigate the case. Ulcer was in such a dazed condition this morning that he could not give a full statement concerning the attack, and for this reason he will be kept in confinement until such time as the police officers are able to make a regular investigation of the matter.

GRAFTERS MAY END IN JAIL

Mayor Schmitz to Start a Sweeping Investigation Across Bay.

SAN FRANCISCO Aug 1—Runners of scandal in the Board of Public Works continue to fill the air, but there are few and far between. Mayor Schmitz spent the larger part of yesterday in making personal investigation of the charges against William O'Shaughnessy, superintendent of streets, who was alleged to have stuffed the payroll to have drawn money from the treasury through the instrumentality of dummies. The result of the Mayor's investigation is at least the partial vindication of the accused official.

As far as I can see there is nothing in the published reports that there is crookedness in the Board of Works. I investigated the charges against O'Shaughnessy and find that there is nothing on which to base the accusations. I have not time or course to investigate every newspaper story. I will continue the investigation however.

The consensus of opinion is that the Mayor who is displeased at the incompetency of the board will probably take up the matter of the revision of the personnel of the board. As complete a change as was made in the police commission is anticipated by those who have the Mayor's confidence.

The word "graft" in this case will hardly fill the bill. The harsher term of "thieves" is applied to what has been going on in the Board of Works. Those who have supplied Mayor Schmitz with the information are confident that many officials now enjoying fat salaried positions will have great difficulty in dodging the penitentiary.

If there be "dummies" on the pay roll drawing salaries which fall into the pockets of a certain clique Mayor Schmitz wants to know it. He is not only ready to swing the ax with great vigor but if here is any official corruption uncovered by the investigation he is willing to send those involved across the bay to San Quentin. Pull and political line will not cut it. There is no one in the Mayor's confidence. His office does from April 18 with the Mayor and the past performances of the politicians count for naught.

WHO FIXED "DUMMIES"

In regard to the charges that William O'Shaughnessy, superintendent of streets has been the one to fix up the "dummies" Max Schmitz is inclined to believe that there is nothing in it but he will make a thorough investigation. He sent for O'Shaughnessy and George W. Boston to his office and intimates there is still going on this morning and put them through a thorough course of questions. Both men denied they were in any way implicated in securing money corruptly.

The recipient in danger is said to be Frank Martin, chairman of the board. The first charge is one of incompetence. What he investigated will probably be a mere matter of conjecture but as the Mayor is in deadly earnest unhooked for revelations are apt to develop at any time.

O'SHAUGHNESSY TALKS

In his own defense William O'Shaughnessy, the accused superintendent of the sweeping department said:

I have called on the Mayor to make the most sweeping investigation of the conduct of affairs in my office. I will not be content unless an investigation has been made. Those responsible for the charges made against me are liars. Where a man's honor is thus assailed he is justified in taking a gun and avenging the injury done him. I have too much at stake in this city to allow these charges to go unheeded. In justice to myself and my friends I demand that an investigation of the most thorough kind be made.

It is ridiculous to say that the treasurer would pay out the large sums of money he would necessarily have to in order that I might get the money. Each warrant must be paid by itself. I have lived in this city many years and it is the first time that my honesty has ever been called into question.

NOT BURIED YET.

"There has never been any decisive action on that bill you introduced year after year."

"No," answered the statesman "that bill has been of such value in giving me prominence that I should rather regret to see it removed from active controversy and buried in the statute book." —Washington Star.

VINDICATE OFFICIAL

Investigations of Mayor Schmitz Favorable to O'Shaughnessy.

SAN FRANCISCO Aug 1—Runners of scandal in the Board of Public Works continue to fill the air, but there are few and far between. Mayor Schmitz spent the larger part of yesterday in making personal investigation of the charges against William O'Shaughnessy, superintendent of streets, who was alleged to have stuffed the payroll to have drawn money from the treasury through the instrumentality of dummies. PROFITS TOO BIG

**FIGHT ON
ALL NIGHT**
Great Northern's Treasury
Filled With Many
Millions.

ST. PAUL, Aug. 1.—During a hearing before the State Railroad & Warhouse commission on merchandise rates in Minnesota, R. I. Farrington, vice-president of the Great Northern railroad, made the statement that no matter how great the earnings of the Great Northern railroad, President J. J. Hill had held down the rule that stockholders should not receive a higher dividend than seven per cent. Mr. Farrington also said that improvements were paid for out of the surplus until a new issue of stock became necessary, when stock was issued in blocks of \$25,000,000.

Mr. Farrington was asked by Commissioner Staples what became of the \$25,000,000 realized from the sale of stock.

BACK TO TREASURY.

"This goes back into the treasury to make good the expenditures for improvements made from the surplus," said Mr. Farrington, "and to pay loans which are frequently made for a short time."

"If you use the surplus for the construction of new lines," pursued Mr. Staples, "where do the stockholders get their money?"

"The stockholders don't get the money back for their stock," was the answer. "Their money is an investment. They get only the interest." J. J. Hill has always made it a rule that not more than seven per cent shall be paid in interest on stock. The use of surplus for new lines is simply a temporary use of treasury assets, borrowing, as it were, from the surplus until the stock is later sold."

"If you were to build 800 miles of new line, where would the money come from?" asked Mr. Staples.

"Eventually from subscribers for new stock," was the answer.

PROFITS TOO LARGE.

Mr. Staples gave it as his opinion that the method resorted to demonstrate that profits were too large. Some discussion as to accumulated surplus caused the matter to be looked up, and it was shown the Great Northern now had on hand a surplus of more than \$19,000,000.

"The profits should never permit of the accumulation of \$25,000,000 surplus," was Mr. Staples' parting shot on the subject.

Mr. Farrington was asked why it was that when new stock was issued it was not sold at 100 or at its real market value, instead of at par. Mr. Farrington then made the statement as to the method of the present controlling stockholders continuing to secure control of the new stock at a small figure.

"When stock is issued," he said, "we have a rule that every stockholder may purchase one share of new stock at par for every five shares of old stock already held."

FOREST FIRE.

BUTTE, Mont., Aug. 1.—A Minet special from Bozeman, Mont., says:

A disastrous fire has been raging since Saturday in the dense forests of Bear Canyon, destroying much valuable timber. It is close to the cuttings made in the canyon by the Walter Cooper company, and much of their timber has been threatened. Many men have been hired to go out and fight the flames.

**BLOOD
POISON**

In the worst disease on earth, yet the best, least to cure. **WHEN YOU KNOW WHAT TO DO.** Many have pimplies, spots on the skin, sores in the mouth, ulcers, falling hair, boils, carbuncles, etc., etc., and don't know what to do. Send to DR. BROWN, 935 Arch St., Philadelphia, Penn., for BROWN'S BLOOD CURE \$2.00 per bottle; lasts one month. Sold by Owl Drug Company, Oakland and San Francisco.

FIGHT ON ALL NIGHT

**REFUTE
STORIES**
Struggle Between Mutineers and Troops Still Being Waged.

American Minister to Mexico Denies Tales of Trouble.

HELSINKI, Aug. 1.—The fight between the mutineers and the loyal troops was waged during most of the past night. The cannonade was heavy and the firing of the guns furnished an awe-inspiring spectacle to the thousands lining the points of vantage on Observatory hill. The loyal minority seemed to have command of the fort on Nicholas Island, which was engaged in a duel with Sandhamm's formidable masked batteries.

At 10 o'clock this morning they were still exchanging broadsides at ten-minute intervals. The victims transported to Helsinki numbered less than fifty, of whom fifteen are dead, but thus far the names of killed or wounded at Svensborg hospital have not been ascertained.

Order has been restored at Skarudden Island, where 110 sailors and eleven civilians have been disarmed. From the civilian point of view the local situation is easier.

TROOPS DELAYED.

Troops are expected soon, but the destruction of bridges near Ilomaki and the tearing up of rails at several points delays the arrival of reinforcements.

The town is quiet and business is proceeding, but the workmen are on a strike.

The Diet at sitting last night issued an order warning the population to abstain from participating in this revolutionary movement.

ANNIVERSARY OF DISASTER.

The revolt, it is pointed out, occurred on the anniversary of a mining disaster which was caused by the recklessness of some officers and resulted in the loss of a dozen lives.

Copies of the Viborg manifesto in reference to the outlawed parliament are being distributed among the Cossacks, who quietly put them in their pockets.

BUILDING RUINED.

A naval squadron, including the battleship Slava, is reported to have sailed from Reval this afternoon for Svensborg.

OWNER IS LOST.

LOS ANGELES, Aug. 1.—A special to the Times from San Bernardino says that by a decision just handed down by Judge Bleeding in the superior court, one George Reed has been declared the owner of a portion of the property of a defunct tinsmith and smelting company by whom he was once employed in Ivanpah Valley. One of this property is a copper slag pile worth \$30,000 which the court failed to belong to Reed. Reed was a resident of Oakland on the fatal eighteenth of last April. He has not been heard from since.

STRAY BULLETS FATAL.

There was a panic all day long yesterday among the summer residents on the islands of the archipelago owing to the fall of stray bullets and shells which caused a number of casualties, both on the islands and in the city. A man sitting on the veranda of the yacht club was mortally wounded and a servant girl was killed.

For more than a week Russian revolutionists have been working among the troops, distributing the Viborg and Group of Toll manifestoes, and it is reported that on Sunday 1500 soldiers took an oath to fight on the side of the people.

FIGHT FOR FORT.

HELSINKI, Aug. 1, 2 p. m.—A heavy cannonading is in progress in Svensborg, showing that the fight for the possession of the main fortification is still going on. It is impossible from the shore to ascertain the exact situation.

The only reinforcements which have arrived here are two companies of the Finnish regiment, which reached here yesterday. General Baron Salta, the commander of the Twenty-second army corps, is on his way here from Villmanstrand.

WILL INSIST ON STREET REPAIRS

While making a tour about the city yesterday afternoon and examining into the condition of the streets, Mayor Mott found that in many places, particularly on Jackson, Thirteenth, Sixteenth, Washington, Jefferson and East Twelfth streets, the macadam and bitumen had been taken up by the water, gas and electric companies and that it had not been relaid properly.

Mayor Mott said in regard to his inspection yesterday:

"I have made a general tour of inspection and I am not satisfied with the manner in which these corporations have been doing their work. I have told them that when they opened up a street they would be expected to restore it to its former good condition, and I find that this instruction has been more honored in the breach than in the observance. You will find trenches or uneven ridges on streets today that the taxpayers have paid thousands of dollars to construct. I have made up my mind that these corporations must obey the law.

"If our ordinances are not sufficient enough to fully control this situation, we will amend them; but there is one point on which I have made up my mind, and that is, we are going to stop this almost criminal method of mutilating the public thoroughfares. I am considering the advisability of a new ordinance, which will provide a fine or imprisonment for such flagrant violations of ordinary common sense in the matter of street work. We are always ready to encourage corporations to make improvements, but in doing so they must not destroy our streets."

No charge for extracting when teeth are ordered. A written guarantee for 20 years with all work.

CAPTURES STEAMER

**LIE IS
PASSED**
Pirates Loot British Ship President of Mutual Life
--Kill Officers and Crew.

American Minister to Mexico Denies Tales of Trouble.

WASHINGTON, Aug. 1.—The State department has received the following dispatch from Ambassador Thompson, at the City of Mexico:
"You will please cause the Associated Press to say that statements in American papers relative to an uprising of Mexicans against Americans in Mexico September 16, is without foundation so far as is discoverable in Mexico, where seemingly all knowledge of an uprising comes of reading American papers received in this city."

NO CAUSE FOR ALARM.

"President Diaz assures me this morning, as he did a week since, that he is unable to find cause for any of the alarming interviews and statements reported to have been given out by Americans returning to the United States from Mexico."

"The Mexican government, however, because of the alarming stories put in circulation, are vigilant to the last degree and should disturbances develop at any point, the offenders will be dealt with as their cases may permit."

"The railway organizations have been named in some American newspaper articles as the instigators of the anti-American sentiment."

HURT BUSINESS.

"Last night the chief officers (Mexicans) of one of the two organizations in Mexico (the Grand Liga de Emplados de Ferrocarril) called to tell of the great injustice the American press is doing to their business, and saying that their people had no grievances against either the Mexican government or the foreigners, their sole object being to propagate peaceably a better condition for the railway employees."

TESTIFIES IN COURT

SAN FRANCISCO, Aug. 1—Charlie Pryal, aged 4 years, was the most remarkable witness in Presiding Judge Graham's court yesterday. The little fellow sat on his honor's lap and was forced to testify to having seen his father, Charles Pryal, slap his mother on the face and knock her down.

"Did papa tell you to tell mamma that he was awful sorry that he slapped her and knocked her down, as he has said here?" asked the judge.

"Yes," answered the child, jingling a handful of pennies which his father had just given him.

"Where was this?"

"I was in the shop, sitting on papa's lap."

"Did you ever see papa knock mamma down?"

"Yes," answered the little witness; "out on the ranch where my dogs are."

"Your two dogs?" inquired his honor, trying to recollect some of the previous testimony.

"Three dogs," Charlie indignantly corrected.

"I will reserve decision in this case," said the court, turning to Helen Pryal, the complainant. "But I think it very doubtful about my granting a divorce. The testimony, taken all in all, would warrant me in refusing a decree. I think that anybody seeing this child in court would be glad if some way could be found to prevent the separation of his parents."

HIS REPLY.

In reply Mr. Untermyer wrote President Peabody last night in part as follows:

"It is impossible to properly characterize the statements in your letter without impairing the dignity of the contest. I repeat the charge that the circular letter under date of July 25, which has been mailed to the policyholders at an expense of over \$15,000, contains grossly inaccurate statements."

I refer especially to the statement 'no one was directly or indirectly responsible for the conditions that existed in and prior to the year 1905, remains in the service of the company.'

KEY ROUTE HAS NEW TIME CARD

The Key Route system has issued a new time card announcing the time of arrival and departure of its ferry boats. The changes made provide for a later boat across the bay from San Francisco and a more frequent service during the night. The new time table goes into effect today. It provides for a twenty-minute service during the day hours, ending at 7:40 p. m., for the Oakland to San Francisco trip and at 7:30 for the San Francisco to Oakland journey. After the time named there will be half hourly service both ways, the last boat leaving Oakland for San Francisco at 12:10 a. m. and the last one bound this way leaving San Francisco at 1 a. m.

On the night schedule the boats leave San Francisco on the even hour and thirty minutes after, and leave Oakland at ten and forty minutes after the hour.

**VOLCANOES TREBLE
ISLAND'S AREA**

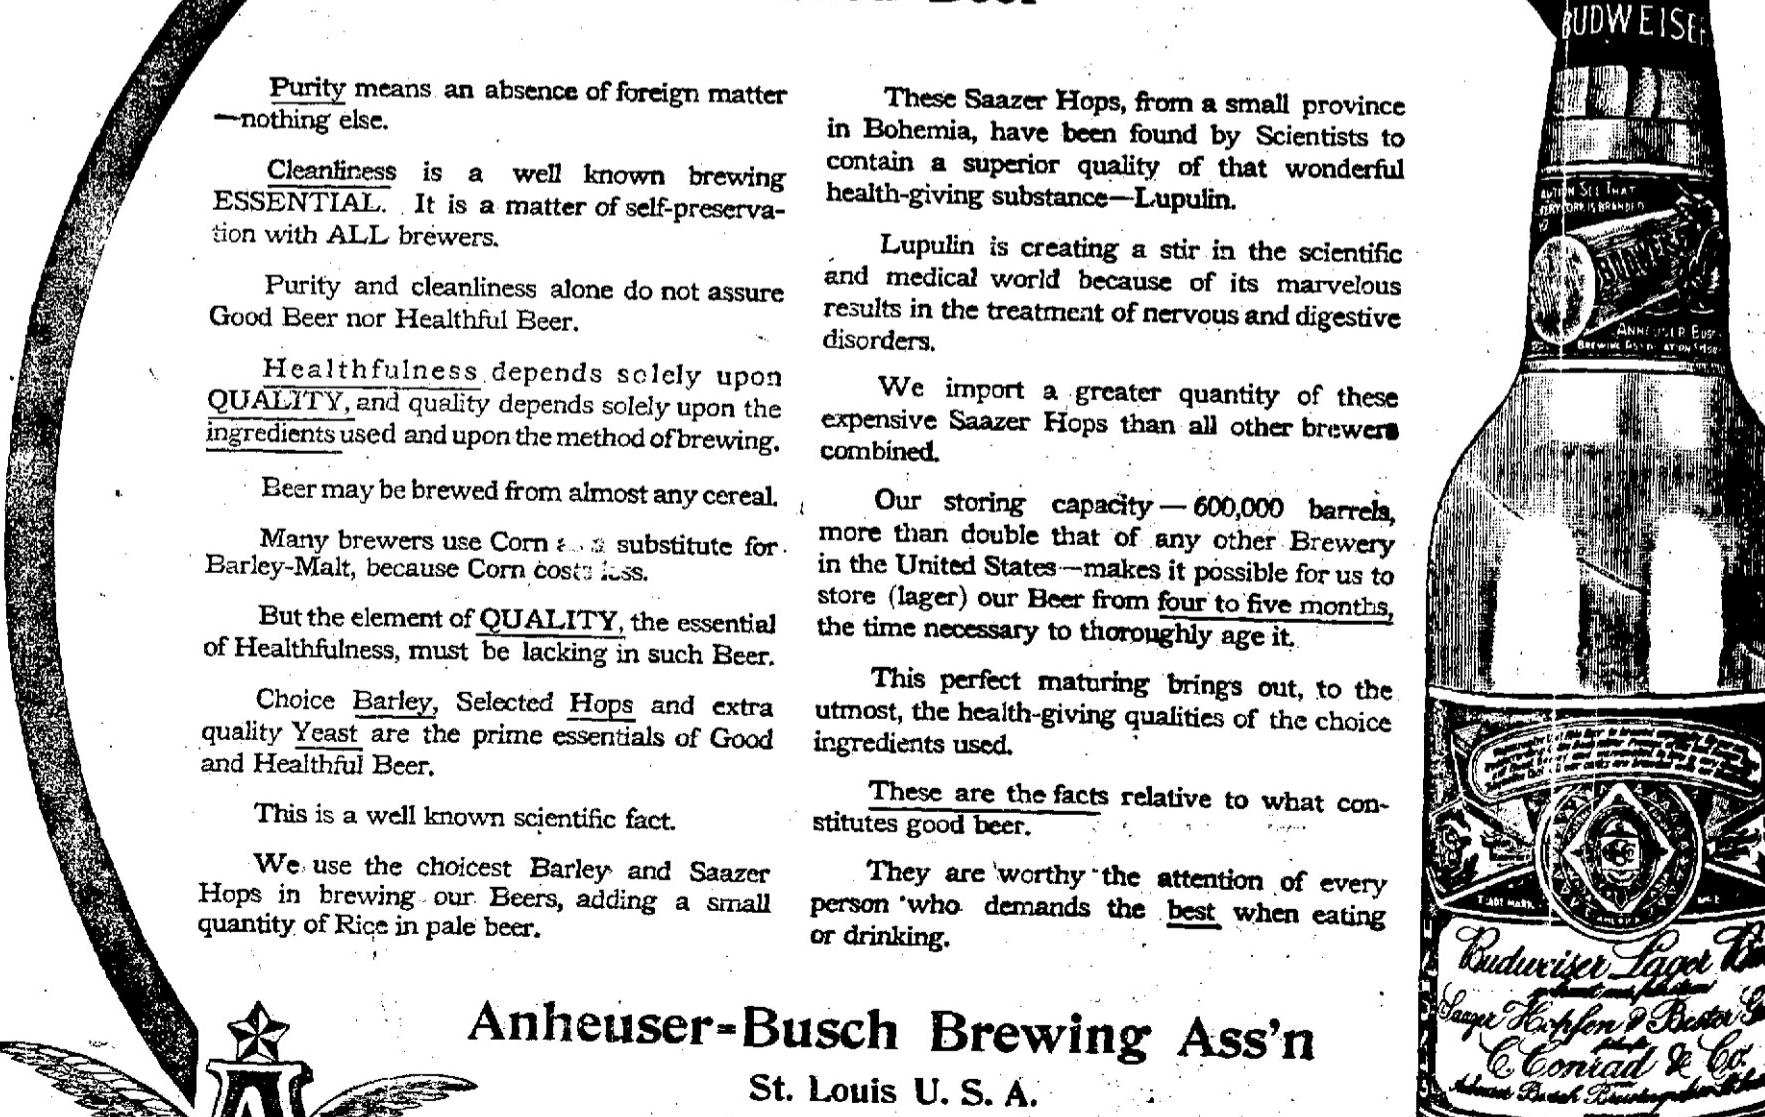

TUTUILA, Samoa, July 9, via San Francisco, Aug. 1.—The volcanoes on Savaii are still active and the island is increasing in area. Several new springs have appeared where water was unknown to exist.

The International Samoan Land commission began its investigations, and agreed that the area increased three times the size of the island. Certain claims were rejected and new demands are now being presented to the German government. The Samoans of the eastern district of Tutuilua have resolved to build a school and to employ white teachers to instruct their children in English. Sitihi, a notorious bushranger of German Samoa, has been killed.

A petition asking for the retention of C. B. T. Moore as governor of American Samoa has been sent to Roosevelt.

Berkeley :: University of California :: Alameda

BOOK HOUSES ARE CRAFTERS

PROMINENT PROFESSOR IS RECIPIENT OF GIFT

So Charges a Member of Berkeley Board of Education at Meeting Last Night.

BERKELEY. August 1.—Two of the largest publishing houses of the United States were accused of graft and underhanded work by Professor Percival E. Lewis, a member of the town board of education at its special meeting last night. This criticism coming as it did from one of the leading professors of the University of California, made a profound impression on the members of the board, and the people who gathered in the town hall to hear the result of the deliberations of the body.

The remarks of Professor Lewis were brought about by the fact that the board of education at their last meeting had adopted the "Harmon" system of music for the use of the teachers and pupils in the public schools. Receiving a number of petitions from the superintendents of music and all the teachers who are at present in town not to change the system of teaching music the board last night rescinded the order of the last meeting and declared the action null and void.

WERE ANGRY.

The fact that the board of education should at the very next meeting change the order of the last meeting aroused the ire of one or two of the directors, and they so expressed their opinion of the matter. It was then that Professor Lewis as a member of the board remarked "that the board was not properly qualified to be the judges of the books that should be used in the school department claiming that they were uttome inuly influenced by the agents for the big publishing companies. He also mentioned of the draft of two of the biggest book publishing houses in the United States. He did not accuse any member of the board of being a graftor, but he said that writing was in evidence.

In moving the order of the former meeting he resounding Professor Lewis remarked that the wishes of the teachers were generally not considered at all. "Being a teacher myself," said Professor Lewis "I can understand the position of the teachers of the schools of Berkeley when this new book is ordered by the board of education. The teachers have their own ideas on the subject of what text books should be used and what should not be used, and they are better judges of this matter than the board of education, who are not experts in that particular line."

MONEY SCARCE.

Clyde Abbott, the prominent bookseller of Berkeley, waited on the board of education and told of the effect the change in the system of music would have on the people of Berkeley. Abbott told of the scarcity of money and remarked, in part, that he did more of a credit business than he had ever done before.

"Some of the best people in town," said Abbott, "asked me to credit them with books and stationery for the next six months on account of the financial straits that they are in at the present time."

The speaker then went on to remark how the new music system had only been in a year and that the pupils who had bought new books last year could not sell them again. He declared that in all lines of books there was a great demand for the second-hand article. "If the board changes the system all these old books will be useless," continued Abbott, "and the people of the town will be forced to spend their money in a new venture which may be changed the following year."

The matter of rescinding the order that was adopted at the last meeting of the board changing the system of music in the schools of Berkeley from the "Educational" system to the "Harmonie" was finally put to a vote and the motion was carried with one director, Schmidt, dissenting.

ATTENDANCE.

ALAMEDA. Aug. 1.—The local schools opened here today with a very heavy registration. There was a large attendance at the High school, and it may be necessary to use some of the rooms which heretofore have been unoccupied. The parental school is not settled as yet, as the heavy registration leaves little room for it in any of the school buildings. It may be necessary to secure outside quarters for the housing of the incorrigibles.

Mrs. Blanche Du Bois has been secured to fill the vacancy caused by the resignation of Miss Mary Kelly. One other vacancy has been filled temporarily, and the position will be filled at the meeting of the board of education on Thursday evening.

Goes to Panama.

ALAMEDA. Aug. 1.—John Walkup has left Alameda to accept a responsible position at Panama. He left last week and expects to be gone a year. Walkup was a member of Company G, N. G. C.

Thereon.

Students Want Faculty to Loan
Them \$7000 to Make Re-
quired Alterations.

BERKELEY. Aug. 1.—A large real estate deal, in which the South Berkeley Commercial and Savings Bank is the principal factor, has just been consummated. This institution, through the real estate and insurance agency of Hedemark & Bradburn of 2929 Adeline street, has purchased a piece of land at the northwest corner of Adeline street and Alcatraz avenue for \$22,500.

While the bank officials will soon commence the erection of a modern two-story building in order to give more room for its rapidly increasing business. The land is 67 by 123 feet and it is the present intention of the directors to erect a reinforced concrete building, which will not be credit to South Berkeley but will rank among the first of the banking institutions of this city.

The bank, which was opened for business on March 1, 1904, with a capital stock of \$25,000, will have its capital increased to \$50,000. The present deposits of the bank amount to about \$200,000.

The present officials of the institution are A. W. Naylor, president; Gud Aylwin, vice president; E. K. Cole, cashier; directors: A. W. Naylor, F. L. Naylor, John M. Foy, J. L. Barker and Gud Aylwin.

STUDENT BECOMES CONSUL IN CHINA

BERKELEY. Aug. 1.—Word comes from Foochow, China, of the rapid promotion of Carlton E. Baker, a graduate of the university with the class of 1905. The appointment of Baker was made some time ago by President Roosevelt upon the recommendation of President of the University Benjamin D. Wheeler, together with Professor Fryer, head of the department of oriental languages, in which the young man especially grouped his work while at college.

Baker was made chargé des affaires consul of Foochow. Upon the absence of Consul Baker, although he had not been in the service for many months, was appointed to the position temporarily.

Carlton Baker is a member of the Phi Sigma Delta fraternity. He is well known in Berkeley as a debater.

NEED ATTORNEY TO TRY THIS CASE

BERKELEY. Aug. 1.—Because the Justice of the Peace of Haywards is not a lawyer and therefore can not decide a civil case, that is set for next Monday morning, Justice of the Peace Robert Edgar of Berkeley will journey to Haywards and try the case for Charles Frouse, the Justice of Peace in that town.

FIGHT WITH BADGER.

BERKELEY. Aug. 1.—After Crossfield, a member of the class of 1905 of the state university and considered one of the best men on the track, had a hard fight with a badger in the mountains of Shasta county a few days ago. Crossfield, with a number of companions, in the course of the struggle, was trampled upon. He was clearing some brush in a mountain gulch where he was attacked by the ferocious beast. He warded off the advances of the beast until the arrival of Stroud, another member of the party, who killed the animal with his gun.

TO MAKE GLYCERINE.

BERKELEY. Aug. 1.—One of the finest glycerine factories in the United States is being erected on Third street between Addison street and Alston way in West Berkeley by the Standard Soap Company. The machinery of the factory has already arrived and is now being installed. Both dynamite and chemically pure glycerine will be manufactured.

HIS ORCHARD WILL REMAIN

Friends Save From Axe Trees of
Well-Known Berkeley
Professor.

BERKELEY. August 1.—Friends have come to the aid of the famous cherry orchard that causes so many sleepless nights on the part of Professor Bernard Moses. The plot of ground will not fall under the auctioneer's hammer to meet the expenses of the street opening of Bancroft way that was ordered some time ago by the Board of Town Trustees. The famous savant went away from Berkeley on a trip to South America for the purpose of study. He is to be gone a year and left no word or agent to pay the money due for the street opening.

But friends have come to his aid and the necessary \$33 was collected and the orchard which was to have been sold to defray his part of the expense of the street opening still remains part and parcel of the professor's estate.

The cherry orchard has attracted some little attention because of the habit of the co-eds of the University of invading the place and bearing away either the pretty blossoms or the choice fruit to all of which the savant objected strongly and sometimes legally.

FISHERMAN CATCHES 100-POUND PORPOISE

BERKELEY. Aug. 1.—Frank Spenger, a fisherman who has his headquarters at the West Berkeley wharf, went fishing yesterday and brought back a huge porpoise, which was found to weigh 100 pounds. The catch was made about a quarter of a mile from the wharf. This catch was not a welcome one by the fisherman as these fish generally are in the vicinity to damage the nets.

Fishermen of West Berkeley report a scarcity of fish in that section of the bay due to the presence of sea lions in large numbers. As the sea lions are protected by law the fishermen have no means of getting rid of these animals, which eat the salmon and sea bass.

**NATIVE SONS TO
HONOR THE WEHES**

BERKELEY. Aug. 1.—A banquet and reception will be tendered Van-leaf Weis and his bride, by the Native Sons of Berkeley.

The affair will be given tonight in Native Sons' hall. The banquet will be given at service candy store, on Shattuck avenue.

Each lodge member will be allowed one guest.

★ ★ ★

ASKS FOR GATES.

ALAMEDA. Aug. 1.—Manager Theo. Poindexter, of the Hercules Gas Engine Company, has written to the town trustees requesting that body to ask the Southern Pacific company to place gates at the tracks on Lincoln avenue at Park street.

He points to the growing amount of teaming done here, and states that two trains, one going east and the other west, pass at this point.

The communication will be acted on at the meeting of the trustees on Monday evening.

PASSES AWAY.

ALAMEDA. Aug. 1.—Ingram Alexander Sharpe, who for many years resided in this city, died at his home on St. Charles street yesterday. He was in the employ of the Southern Pacific company up to the time of his death. He was struck with apoplexy last week and never recovered.

WANT A COPY.

ALAMEDA. Aug. 1.—City Clerk C. R. Stibbins, of Riverside, has written to this city for a copy of the charter recently adopted. Riverside is going through an agitation for a new charter at the present time, and he desires to submit the laws adopted here to the citizens.

MEETING POSTPONED.

BERKELEY. Aug. 1.—The meeting that the Good Government Club was to have held in West Berkeley next Saturday night for the purpose of turning up the saloon movement in that part of the town has been postponed. E. J. Martin, president of the club, will announce the date some time in the near future.

★ ★ ★

BOY WHO THREW STONES IN COURT

For throwing a rock at Max Markowitz, who lives in a tent at Fifth and Linden streets, Joseph Cassell, a youth pleaded guilty yesterday to a charge of battery. His companion, Frank Sangulnetti, pleaded not guilty and his trial was set for August 9th.

Markowitz has been troubled by the boy and he complained against these two when they commenced throwing rocks at him. One of the missiles struck him on the head. The youths admit throwing the rocks, but neither knows who hit Markowitz.

TAKES CHARGE OF Y. M. C. A.

Berkeley Student Becomes Head
of Salt Lake City
Institution.

BERKELEY. August 1.—News has reached Berkeley that James Gustav White, a prominent member of the class of 1905 of the State University, will not return to the University Association of the Y. M. C. A. to take charge of the local student branch for the fall term of the University which opens on the 20th of this month. White went to Salt Lake City, Utah, a short time ago to take charge of the educational department of the Y. M. C. A. in that city.

He expected to return to Berkeley in time for the opening of the University to take up the work of the association here. He has, however, secured a good position in Salt Lake City and it is now doubtful if he will return to the local society for at least a year.

While in the University Mr. White took a prominent part in all Y. M. C. A. work, and was also actively interested in student affairs. He was a member of the Abacabada Club, and of the Winged Uruem Honor Society. In the last half of the junior year he edited the Daily Californian, the student daily paper. He now has charge of the educational department in Salt Lake City.

The advancement of other prominent workers in the University Y. M. C. A. will also be of interest. René Hutchinson, '00, who has been religious work director at Portland, Ore., has accepted the general secretaryship at Spokane, Wash. While in college Mr. Hutchinson was especially identified with the Student Association, being one of the first general secretaries at Stiles Hall. He was a football man, a member of the Golden Bear and a member of the Beta Kappa.

SEARCHES FOR OFFENDERS.

BERKELEY. Aug. 1.—Officer Frazer of the police force has been making the rounds of the town searching for offenders of the ordinance which relates to the obstruction at night of the streets and sidewalks of Berkeley without lights. Already the officer has reported six offenders of the ordinance. He has given the guilty parties warning and if they do not obey by this administration arrests will follow.

WILL REMEDY COMPLAINT.

ALAMEDA. August 1.—Superintendent Scott of the F. P. Co. has written to the city clerk stating that the trouble at Webster street will be remedied. The complaint comes in answer to one to the city concerning the condition of the sidewalk at Webster street. The city has given the attention to a dangerous crossing on the marsh where no flagman is kept.

SKIN DISEASES FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; this fiery acid matter is forced to the surface through the pores and glands. Pustules are formed, discharging a sticky fluid which dries and makes crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding.

Sometimes skin diseases are in the dry form, and blisters like scales come out which are easily rubbed off and continue to get worse. The itching, especially at night, was simply terrible. I had tried many highly recommended preparations and remedies, but nothing would help. I determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely.

Brilliant Men and Women as Public Teachers.

In a recent address delivered at the University Summer School at Berkeley, Professor John Adams took occasion to discriminate against the brilliant man or woman as a public teacher. It was based on the extraordinary assumption that a teacher endowed with intellectual brilliancy overreaches the dullest members of the class and, consequently, fails in the production of the best results. The standard of fitness to teach is, therefore, fixed, according to his rule, by the intellectual status of the dullest pupils. If this standard is correct, then none but men and women of inferior intellectual capacity have a right to enter the teacher's profession.

The standard thus defined is, of course, faulty. The experience of the University of California is enough in itself to brand it as such. That institution never stood so high in the estimation of the intellectual and educational world as a seat of learning as it did when such brilliant men as Gilman, Edward R. Sill, the Le Conte Brothers, and other educators of like type directed its affairs or were members of its faculty. When such men were associated with the university no educational institution in the country possessed brighter teachers and none produced better fruits. Given any kind of school equipped with teachers of dull intelligence and poor learning, we cannot reasonably look for anything better than the most commonplace results.

Perhaps the trouble with some of our higher educational establishments is that the brilliant men in their faculties are the exception and that the men of mediocre brains, knowledge, ability and force constitute the rule. If this be true, it will help to explain why so large a majority of their graduates fail to make their mark in the activities of life which they subsequently enter. "Like master, like man," is an axiom which applies with equal force to schools and colleges as it does to every branch of human industry.

Life is, indeed, in a broad sense, an educational course. Every man or woman living is, or should be, either a teacher or a student. The brighter men and women in human society are usually both, and the world at large is constantly reaping untold benefit from their work. The brighter they are the greater and richer their contributions to the fund of human knowledge. The man or woman who is neither learning nor teaching contributes little, if anything, more to the world's wealth and welfare than that which the brute force either possesses or capable of giving.

Professor Adams' advocacy of the employment of men and women of only commonplace intelligence and ability as teachers resolves itself into a plea for the production of inferior fruits in the work of education. If his rule of selection were followed, the progress of education would certainly cease and the intellectual outlook of the race would be anything but promising. The standard of the art of teaching should be regulated by the same rule which governs in every other sphere of human usefulness, where the grade of intelligence is accepted as the gauge of proficiency; the higher the former, the more perfect the latter.

The greatest teachers the world has ever had in any age have been those who were exceptionally bright, and the fruits of their great intelligence has been handed down from generation to generation to enrich human knowledge. If a teacher possesses the art of communicating knowledge, the brighter he or she is the more successful will be the work in and out of the classroom. Intellectual brilliancy cannot, therefore, be a drawback to the profession. To the contrary, it is obviously an invaluable aid, and it should be sought and fostered wherever it can be obtained.

A school enrollment less than 25,000, and a registration of voters not exceeding that number, indicate that the total population in San Francisco at present does not exceed 150,000, which accords pretty fairly with the army census made under General Geely's orders some weeks ago when he placed the population at 110,000.

The new Japanese Ambassador to Great Britain, who is now at Victoria, B. C., en route to London, gives new assurances of the determination of the Tokio government to respect the agreement of an open door in Manchuria. There has never been any reason, in fact, to doubt the good faith of the Japanese in this regard, for they have so many advantages in their favor in the way of proximity to market, cheapness of native labor employed in the manufacturing industries and the low cost of raw products, that they have no occasion to risk the recurrence of the displeasure of other commercial nations by doing anything which would deprive them of the opportunities of competitive trade.

The assumption which is finding favor in some quarters, that the forming of the Salton Sea in the Colorado desert has been responsible for the low temperatures prevailing near the coast, is untenable. The presence of a large sheet of water in the interior ought to have a cooling influence on the surrounding atmosphere. Instead of that the territory adjacent to the Salton Sea is suffering from intense heat and deaths from sunstroke are more numerous on the desert this summer than ever before.

Presenting a long list to the retiring Red Cross manager of the San Francisco relief fund and eulogistic speeches from those who have been associated with him in the work, have not convinced the refugees in the camps that they have been properly treated or removed the conviction from the minds of the public generally that his administration has been the means of covering a vast amount of graft. Nothing could be more suggestive of the drift of public sentiment regarding relief matters than the gathering of angry refugees outside the St. Francis Hotel to protest against the banquet which was being held inside. The contrast between a banquet table covered with the choicest viands and wines and the soup kitchens of the refugee camps was brought out by the spectacle with telling effect.

The United States District Attorney is said to have begun an investigation into the operations of the lumber trust. That a combination exists for the raising of lumber prices is a matter of common notoriety. If the United States District Attorney can succeed in breaking it up as an unlawful combination in restraint of trade he will accomplish a good work. But while he is giving his attention to lumber, why not broaden the field of investigation and ascertain why the prices of all building materials have been advanced to such a degree that it costs much more to build a one-story five-room cottage than it did three years ago to erect a two-story seven-roomed house and bath?

A New Revolution Started in Russia

The red flag of revolution has been unfurled in Russia once more, and, according to the latest accounts, it is floating today triumphantly from the battlements of Sveaborg, one of the three great fortresses of the empire, as the result of a mutiny in the garrison. Only the infantry division of the latter remained loyal. Artillerymen, sappers and miners ranged together under the flag of revolt, and these were joined later by sailors from the warships in the harbor of Helsingfors, for whose defense the fortress was constructed. The mutineers seized the rapid fire guns and then turned them loose, with frightful effectiveness, on the loyal troops penned in the barracks.

The new revolt is represented to be the result of a conspiracy formed by the revolutionary leaders to seize simultaneously the three great fortresses of the empire—Sveaborg, Cronstadt and Sebastopol. The revolutionaries' plans were prematurely carried out at Sveaborg, certain offenses charged against some of the officers precipitating action by prompting those of the garrison who were ripe for mutiny to rise at once.

Thus premature execution of the revolutionary plans at Sveaborg may be the means of defeating them so far as Cronstadt and Sebastopol are concerned, for the government is sure to make every effort now to prevent an uprising in them, as their capture by the revolutionists would make its position desperate indeed.

However this may be, the seizure of Sveaborg by a mutinous faction of its own garrison proves that the propaganda which the revolutionary leaders have carried on assiduously since the failure of the uprising of the industrials, for the defection of the army, has been largely successful. It is plain now that the army, as a whole, can be trusted no longer. Even the Cossacks, on whom the Czar and his advisers have always relied, are suspected of wavering in their loyalty, as they are known to have offered no resistance to the distribution of the manifesto adopted by the members of the Douma when they convened at Viborg as a protest against the Czar's act of dissolution, but to the contrary accepting copies of the same and, instead of destroying them, concealing them on their persons for future perusal.

The Russian navy has long since been unreliable. The Czar had ample evidence of its disloyalty last year, in both the Baltic and the Black sea fleets, and the readiness with which the marines belonging to the warships at Helsingfors joined the Sveaborg mutineers shows conclusively that the spirit of insubordination is still paramount in it. If the army is, also, honeycombed with disloyalty, which seems to be the case in both rank and file, as many of the Sveaborg officers are said to have joined the revolt, then the outlook for the autocracy is indeed gloomy. The new premier is endeavoring to pacify the country by organizing a cabinet of conservative Democrats whose names have hitherto been associated with proposed reforms; among others with plans for the settlement of the agrarian agitation in which the peasantry are concerned, but it looks as if he had stepped to the front too late to save his imperial master from the wrath of a people who have suffered long under the heel of oppression or his country from the horrors of a bloody revolution, of which the mutiny at Sveaborg is probably the prelude.

SOME PASSING JESTS.

"Algernon is interesting," said the stock broker's daughter. "What does he talk about?" inquired the father.

"He's ever so well posted in Shakespearian quotations."

"Young woman," said the financier sternly, "don't let him deceive you. Don't you let him make sport of your ignorance. There isn't any such stock on the market. I ought to know, for I've been on the exchange long enough."—London Answers.

Mr. City Boarder was being entertained by his rural sweetheart. "Do you play and sing 'When the Cows Are in the Corn,' Miss Milkywhite?"

"Lord bless you, no!" she ejaculated: "I get the dogs and chase 'em out."—Harper's Weekly.

"I want to complain about the way you printed the notice of my daughter's wedding," said the fussy old man. "Now, the bride's name was Gratia, and—"

"How did we have it?" interrupted the editor.

"You had it 'Gratis,' sir!"

"Well, that's not so bad. You gave her away, didn't you?"—Catholic Standard Times.

"When did you first become acquainted with your husband?"

"The first time I asked him for money after we were married."—Life.

HORSE LIVES TEN DAYS IN TUNNEL

REDDING August 1.—A horse that had been missing for ten days was found alive yesterday in a mining tunnel, where it had been imprisoned by a cave-in at the mouth of the tunnel. The animal belonged to John Martin of Grizzly Gulch. Martin discovered tracks at the mouth of the tunnel, which was closed all but a small aperture near the top. The earth had dammed up the water so that it was within a few inches of the roof of the tunnel.

Martin went to the opening and called the horse by name and was amazed to hear a whinny answer from the interior. He got a pick and shovel and

soon removed enough earth to drain off the water and allow him to enter the mine. He found the horse alive sixty feet from the opening at a point where there had been a raise. The animal was nearly famished, but will live.

SCIENCE OF TEACHING EXPLAINED BY EDUCATOR

Superintendent of Schools in Seattle
Tells College Students About
Its Intricacies.

BERKELEY, July 31.—Mr. Frank B. Cooper, superintendent of schools in Seattle, is delivering a series of lectures at the summer school of the University of California. Yesterday afternoon he delivered a scholarly address on a special subject entitled "The Function of Friction and Wear in City Schools."

He said in part:

"The teachers of the diff. 'r' trades should have an advisory committee and nominate seven members from each of the several grades, who should be selected by the superintendents of schools from the grades from which they are chosen."

"I would recommend that only those reports and statistics which are made necessary by law or by gifts should be used by the teachers. There are good many statistics that have been required in the past that are neither interesting nor important, and the time and energy

of teachers should not be taken up in gathering statistics a great many of which are useless. Reports should be put in the simplest form compatible with their purpose. Save the time and energy of the teachers for something more consequential and important."

GREAT WASTE.

"Unless there is an adequate supply of books and other articles there is likely to be a great waste of time and temper on the part of the teacher and school."

"School boards very often make a mistake in employing a teacher with good salary and fail to get dollars for it by not getting the proper equipment."

"Friction arises in schools because of the unequal distribution of stimulants. The very industrious and ambitious are receiving an undue amount of incentive wherever the teacher addresses the class generally for the purpose of stimulating the slack and unambitious."

**MEHRMANN
FOR PRESIDENT**

**FLOATING MINES
ARE DANGEROUS**

Local Coroner Made Head of
California Eagles by Con-
vention.

Russian Obstructions Almost
Sink a Steamer in
China Sea.

PETALUMA, Aug. 1.—The Guard
of Honor elected office's vice-presi-
dent. Dosey occupied the
chair. Baker-Diel was chosen as the
covention's vice president for next year. Redding
and San Francisco contesting for the
other.

The following officers were elected
and installed this afternoon: Junius
H. Matthews, president; J. W. Dorsey, vice-
president; Dr. H. B. Mehrmann of Oakland, vice-president; Gustav
Pohmann of San Francisco, re-elected;
treasurer; Carl Sweeny of Sac-
ramento, State chaplain; Rev. Goodall
of San Bernardino, State canon actor;
William Conner of San Rafael, inside

in Red Men's Hall. Site of Judge
Lemon's actives has now been largely
reconstructed. The meeting has been
the history of the city, and many
memories were brought up by the
elective officers.

**OPEN BIDS FOR
IMMIGRANT STATION**

Bids for the construction of buildings, etc., for the United States Immigrant Station on Angel Island, were opened yesterday afternoon at 2 o'clock at the office of Architect Matthews. One bidder was one minute late, and his bid was rejected. Bids for four classes of work had been called. For electric light wiring, but one bid was received which will be sent on to Washington unopened.

The other bids were:

On general specifications, James Campbell Co., \$150,000; Potter & Campbell Co., \$15,000; E. A. Littlefield, \$12,773; Pacific Construction Co., \$17,000; Robert Wakefield, \$16,000; Healy, Tibbets, \$15,000; Burrell Const. Co., \$18,370; Cotton Brothers, \$13,970.

Steam and hot water heating, Robert Dalziel, \$38,525; John G. Sutton Company, \$4,850; Pacific Marine & Co., \$4,420.

Steam, power, and electrical equipment, Henschaw, Buckley Co., \$18,125; Hunt, Murphy & Co., \$6,380; George C. Moore & Co., \$2,000; T. C. Engle Co., \$7,500.

Plumbing, Robert Dalziel, \$10,250; The Ralph Dodge Co., \$19,533.

All the above bids go to Washington for approval or rejection.

**COMPLETE NEW
FRUITVALE STATION**

The new Southern Pacific station at Fruitvale is completed. The old station building will be moved to Sather. Austin will receive the old Sather station.

FILE ARTICLES.

Articles of incorporation of the Bay City Planting Mills were filed yesterday afternoon by E. L. Reed and F. A. Reed of Oakland, and Fred E. Reed of Berkeley. They are the directors for the first year. Oakland is the principal place of business, and the capital stock is \$25,000, of which \$300 has been subscribed. The purpose of the corporation is to carry on a general milling and canning business.

The net worth of this corporation is estimated to be about a \$100,000. It may have a poor record, however, having been engaged in business for some time past.

LAKES \$900 SALE

The activity in downtown property

leads to remarkable changes. Many transfers of small business properties appear on the record daily. A recent one of note is the sale of the store and flat on the north side of Clay street, between Washington and Clay, from Antonio Ar-

gentino to George W. Davis for \$900.

**Well-Known San Franciscan
men testify to the wonder-
ful merits of**

Nau's Dyspepsia Cure

Honest John Nau, located for 27
years at 1407 Market Street, says:
I have been a sick man for 20 years
with stomach trouble, vomited twice a
day during this time, had terrible pains
in the pit of the stomach. Since com-
mencing on

NAU'S DYSPEPSIA CURE
have not vomited. It relieved me at
once, have taken quite a few bottles and
consider myself perfectly cured.

Mr. Crawford Ferris, Michael
Burke, also cured. Mr. Sutro, ex-
Mayor's son, first recommended it to
me.

His friend, Mr. Crawford Ferris, 1818
Elm street, says: Troubled with gas-
tric trouble without permanent relief
I must say, after I saw how it
cured my friend, John Deleary, I com-
menced taking it about 9 months ago.

I am now entirely cured of a
stomach trouble, almost relieved me.

Subscribed and sworn to before me
this 22nd day of September, 1904.

JAMES M. ELLIS,
Notary Public in and for the City and
County of San Francisco.

Many medicines like pepto, soda, char-
coal, relieve stomach trouble, but they
cannot cure. Nau's Dyspepsia Cure
cures the cause. We have thousands of
testimonials from over the world.

Nau's Dyspepsia Cure is sold by
first class druggists at \$1.00 per bottle or six
bottles for \$5.00. Not obtainable, send
to

Cochran's Ginger Ale, Delinches, Chau-
venet & Co.'s Burgundies, The Great
Auk's Head Bottlings, Ale and Stout
Wines and Spirits.

FILE ARTICLES.

Articles of incorporation of the Bay
City Planting Mills were filed yes-
terday afternoon by E. L. Reed and F. A.
Reed of Oakland, and Fred E. Reed of
Berkeley. They are the directors for

the first year. Oakland is the prin-
cipal place of business, and the capi-
tal stock is \$25,000, of which \$300 has
been subscribed. The purpose of the
corporation is to carry on a general
millling and canning business.

The net worth of this corporation

is estimated to be about a

\$100,000. It may have a poor

record, however, having been engaged

in business for some time past.

THE ACTIVITY IN DOWNTOWN PROPERTY

LEADS TO REMARKABLE CHANGES.

A recent one of note is the sale of the

store and flat on the north side of Clay

street, between Washington and Clay,

from Antonio Ar-

gentino to George W. Davis for \$900.

Yosemite.

A Modern Health and Pleasure Resort.

The waters are beyond compare as a
remedy for Rheumatism, Neuralgia, Kid-
ney and Liver Diseases. Excellent hotel;
hotels, also first-class restaurant, library,
reading room, billiard room, etc.

Address Manager, Yosemite.

Tribune's Page of Sporting News

SEALS CAPTURE FIRST OF IMPORTANT GAMES

RESULTS OF GAMES.

San Francisco 2, Portland 1.
Fresno 13, Los Angeles 12.
Seattle—No game, owing to non-arrival of Oakland team.

Score once for the followers of Park Wilson in the contest for the lead of the pennant race. The Seals and the Braves met in the first game of the series at Idora Park yesterday, and the former triumphed. It was a great game, with the in and out fielders playing ball that was lightning fast. It was won in the end by a flier, but the Seals were coming strong and it is doubtful if they could have been beaten.

The Refugees scored once in the first period, when Spenoar was walked. Wheeler sacrificed and Mohler took occasion to wallop one of Gun's curves for two sacks. After that things went along till the ninth, some great playing being witnessed, but no one coming home on either side. In the ninth Mitchell first up, faced one of the world's best, and after two hard and successive sacrifices by McCreedy and Smith tied the score.

It was up to Mohler to face the pitcher first in the last half, and the Kid failed to score, while Gun, who was going to first, then Hildebrande who until then had done nothing to Gun, tore off a sweet single to left, and when Nick Williams dumped the ball about four feet in front of the plate, Mohler and Gun each advanced a sack. Then came Charlie Irwin and the end. The first one tossed to him was bad and he let it go past.

ANOTHER BALK.

Gum poised himself to pitch again, but just before he was about to deliver the ball he saw Jimmie Brown run across the bat and motioned to Gun for a little conference. Instead of tossing the sphere to third base, as he should have done, Gun lowered his hand and stepped out of the pitching box. It was the rawest, most unmistakable kind of a balk, and there

WILL TRY TO O'BRIEN SAILS AWAY TO LONDON

SAN FRANCISCO, Aug. 1.—L. H. Whitman, the hero of two transcontinental trips in an automobile, is preparing for another dash across the continent in an effort to establish a new record. The present record of thirty-three days stands in his name.

Whitman, with C. S. Curris, who accompanied him on his last record trip, will start at noon tomorrow from the Franklin headquarters, 405 Golden Gate avenue. A large crowd is expected to see the intrepid driver start on his trying trip.

The features of the present test of the strength of the automobile under the most trying circumstances will be the size of the car which will be used in the past the machines have weighed about 1,069 pounds, and when they became stalled in bad roads it was comparatively easy to get them out of difficulty.

In his next trip Whitman will use Franklin weighing which when about 3,000 pounds, it will be a six-cylinder, and the engine will develop thirty-five horsepower. The car will have a steel base, 112 inches. The wheels will be forty-six inches in diameter and will be fitted with four-bolt tires. The car is the regular stock except the only change being in the size of the wheels. The tires are those of thirty-four inches in diameter.

Whitman will follow the line of the railroad, having found it the most satisfactory on his previous trips. He will go from Oakland to Stockton, thence on to Sacramento, Colfax, Truckee and Reno. The 600 miles across the desert will be the most trying part of the trip.

From Ogallala the Union Pacific will be followed to Cheyenne. The country is more thickly settled from this point on, and with good weather conditions fast time will be made. From Chicago the route selected will pass through Toledo, Cleveland, Erie, Buffalo, Albany and then New York with all its lights and noise and glories.

Mineral Water-Sun Bath

When you have finished with the bathing proper at the Paseo Rosas Hot Springs new bathhouse, you go into a great glass room and take a scented sun bath. It's fine. Low rates at hotel for long stays. Three trains daily.

Get What You Ask For!

HERE is a Reason—

Why the Good People of America buy Cascarets as Fast as the Clock Ticks.

Every second some one, somewhere, is buying a little Ten-Cent Box of Cascarets.

1, 2, 3, 4, 5, 6—60 times to the minute, 60 Minutes to the Hour, 360 Boxes an Hour, 36,000 Boxes a Day of Ten Hours, 1,080,000 Boxes a Month, and then some.

Think of it—223,000 People take a Cascaret tablet each day. Millions use Cascarets when necessary.

The Judgment of Millions of Bright Americans is Infallible. They have been buying and taking Cascarets at that rate for over Six years.

They are Trade Thieves who would rob Cascarets of the "Good Will" of the people, and sneak unearned profits earned and paid for by Cascarets.

The Judgment of Millions of Bright Americans is Infallible. They have been buying and taking Cascarets at that rate for over Six years.

Cascarets are the implacable foe of All Disease Germs; the incomparable cleanser, purifier and strengthener of the entire Digestive Canal.

They Act like Exercises on the Bowel Muscles, make them strong and active—able to help themselves do their work—keep themselves clean.

Cascarets are the safe-guard of Innocent Childhood against the Dreadful Death-dealing Dangers that threaten the Lives of the Little Ones.

They are Purely Vegetable, absolutely harmless, always reliable and efficient.
